

**Wisconsin Badger Chapter – CMAA
SMOKING BAN SURVEY
June, 2009**

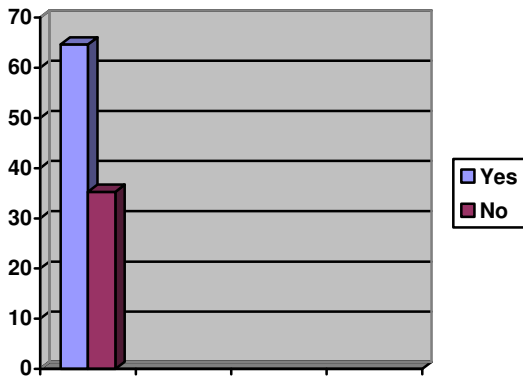

The state of Wisconsin recently passed a statewide smoking ban to go in effect July, 2010. In light of this, chapter members asked what their fellow area club managers are doing or have already done to accommodate this.

Of 111 surveyed, 17 replied. The results are as follows:

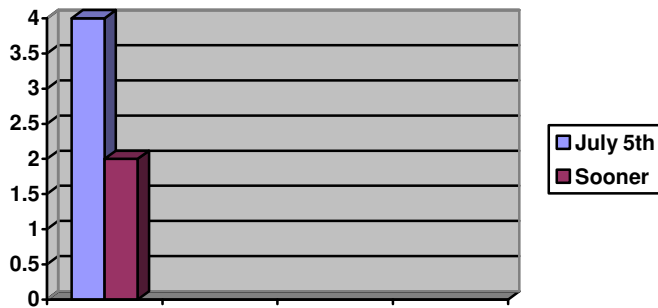

Is your club currently smoke free?

64.70% - Yes

35.29% - No

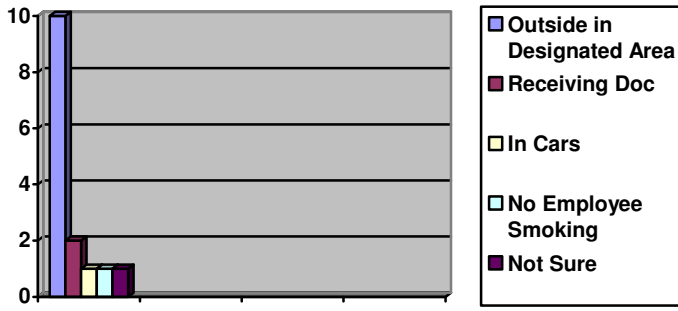

If not, are you planning on enacting the smoke free ban on July 5th as required by the state or sooner?

Where will you allow your members to smoke once the ban is in place?

Where will you allow your employees to smoke once the ban is in place?

How and when will you notify your membership of the smoking ban?
