Levels of Leadership: Proven Steps to Maximize Your Potential

by:
*Derek
Deprey*

True leadership isn't a matter of having a certain job or title. In fact, being chosen for a position is only the first of the five levels every effective leader strives to achieve.

To become more than "the boss" people follow only because they are required to, you have to master the ability to **inspire** and **invest** in them.

To further grow in your role, you must **build a team** that produces while helping teammates develop their skills to become leaders in their own right.

In this workshop, Derek will show you how to **master each level** and rise up to become a more influential, respected and successful leader.
